

The Transaction Layer for Digital Currencies, synonymous with speed, security, and simplicity of use

WadzPay is a Blockchain-based Payments platform for Digital Currencies that has been designed to support Bitcoin and Ethereum, Stable Coins such as USDT and IDR, and Sovereign / e-currencies such as e-Yuan and e-SGD.

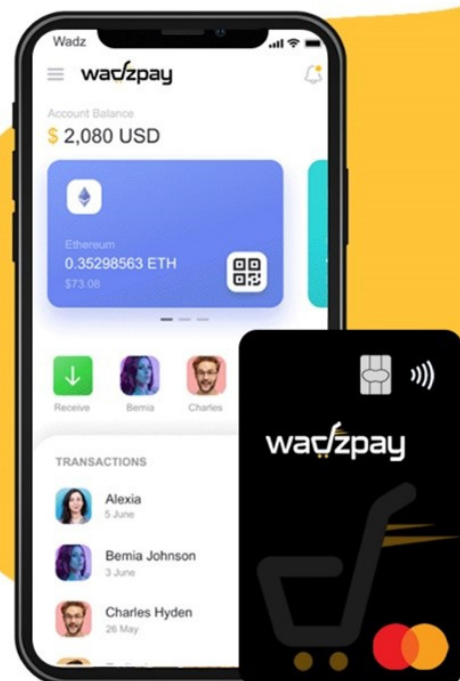

It is designed to help economies and society leapfrog into the next generation of digital payments. This is especially true for developing economies with large unbanked / underbanked population.

WadzPay Offers

- ✓ Simplified payments
- ✓ Lower transaction fees
- ✓ Sustainable and scalable solutions
- ✓ Greater security, with a goal to eliminate fraud

WadzPay Products

- ✓ WadzPay app featuring a multi-currency wallet for digital currency transactions
- ✓ Prepaid cards from two major card providers
- ✓ WadzPay Merchant dashboard
- ✓ Where to WadzPay sub-page
- ✓ The WadzPay Token which fuels our payment ecosystem

WadzPay App

- Accept and Pay in most digital currencies with a simple QR code or username, instead of a complicated wallet address.
- Speedy user onboarding with fast and secure KYC/AML performed according to local regulations and enabled by a market leading partner.
- Easy loading & withdrawal of funds: user-friendly loading and managing your preferred digital currencies or withdrawal of funds in Fiat.
- Invoicing via email or chat.
- Safe & secure.
- Micro-transactions: WadzPay can significantly reduce overheads for merchants with near-zero charges and instant verification.

Market Opportunity

Primary Target Market

We have selected Asia as our primary target market, where digital payments are booming.

Unbanked / Underbanked Market

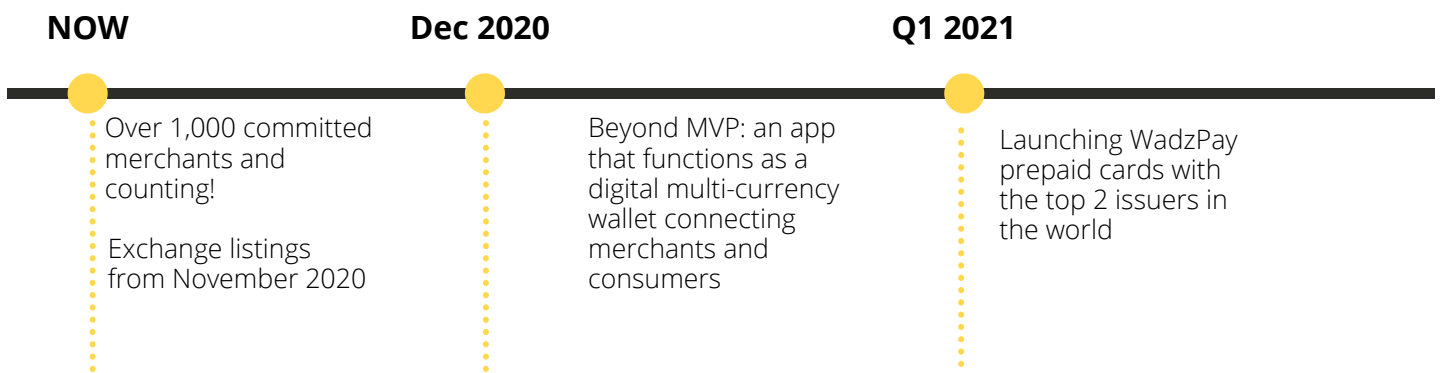

1.7 Billion
Unbanked / Underbanked Adults

2 out of 3
Own a Mobile Phone

1 in 2
Live in Asia

Digital / Mobile payments are already a norm in Asia. We do not need to change consumer behaviour to succeed. Additionally, those who are unbanked / underbanked will be able to get on the grid and start making and accepting payments via digital currencies, without any added cost.

Progress Highlights

Leadership Team

Anish Jain (Founder and CEO)

Over 15 years of experience in payments including as VP for Mastercard and GM for AMEX.

Matthew Winstanley (Head of Commercial)

Over 20 years in the technology sales sector including at IBM, Bell and Symantec.

Simon Connolly (Head of Technology)

30+ years in technology including enterprise & industry solutions, and banking.
